Date: 1-03-24

Time: 8:00 PM

Location: Online(G-Meet)

Attendees: Team-23

- Chirag Dhamija
- Prakhar Singhal
- Sohan Mupparappu
- Asish Bharadwaj

Title and Purpose of the Meeting

Title: Mega Meet-1st March

Purpose: To discuss and suggest UI/UX for Portfolio Management

Important Highlights of the meet

Review of Previous Work

On March 1st, a mega meet was convened, gathering all teams affiliated with Venture Vault. The primary agenda was to engage with the newly hired UI/UX designer. The focal point of discussion was the presentation of the UI/UX for the Portfolio Management feature. Subsequently, constructive feedback and suggestions for enhancements were provided by all participating teams.

Future Action Plan

The forthcoming agenda encompasses the finalization of the UI design to initiate website development. Additionally, we aim to compile and submit a cost estimation for the Portfolio Management Feature. Furthermore, all the teams under Venture Vault will convene in person to deliberate on the database structure from a coding perspective, ensuring uniformity across all teams.
